

**INDIVIDUALLY HAND-TIED SPRINGS:** Hastens unique spring system allows each spring to move individually to assure that you have the right support throughout your body. Since our body shapes and constructions are unique and our weight is unevenly distributed, individual springs that move independent from each other is the only way to reach full support and relaxation. The correct spring tension is based on our shape and weight and should allow you to feel weightless, or as many of our clients describe the feeling, as “sleeping in a cloud.”

The feeling results from centuries of engineering and utilizes our weight to activate the springs. Once one of our sleep consultants, who all have been educated in Sweden, have determined the correct spring tension, you will find that your body is pushing down the spring and the right tension responds by lifting you up to the stage where you feel nothing. This is the stage where your body will be completely relaxed and you will find the deepest and most qualitative sleep. The bed will conform to your body and assure that your spine is straight all through the night. Horsehair’s hollow construction acts as nature’s own air-conditioning system by allowing air to constantly circulate within your bed. This will prevent you from getting hot while sleeping. The hollow composition helps to whisk away moisture, which inhibits dust mites, mold and bacterial growth. This

allows your bed to last for up to 50 years. We currently have thousands of beds in Sweden that have been inspected and perform beyond the 50-year mark.

**HERITAGE:** Hastens is one of Sweden’s oldest manufacturing companies. The initial company made saddles for horses and was founded in the eighteen century. Hastens as we know it today was founded in 1858 and remains family owned and operated. All our beds are handmade in Köping, Sweden and many of the people that work in the Hastens factory are following in the footsteps of their ancestors, who also made what we believe to be the most comfortable beds in the world.

**CUSTOMER SERVICE:** Being the top contender comes with responsibility and expectations. That’s why our two Los Angeles branches (Beverly Hills and Santa Monica) have a service team that, free of charge, comes out to your home to flip and massage your bed for the lifetime of your mattress. Most of our clients utilize this service one to two times a year. We pride ourselves in providing the best customer service in the world and we are proud that our Beverly Hills location is the best performing Hastens store in the world.

Handcrafted mattresses made by all natural materials in Sweden since 1852.
